

# RETIRING AND HAVE YOUR CDL?

WE NEED YOU!

## Come be a driver instructor with the Minnesota State colleges and universities!

If you still want to be involved in the industry and want to share your knowledge with the next generation of drivers, come teach with us!

New entry level driver standards are requiring more instructors to keep the current flow of drivers going into the industry. Your experience would be a great asset and can help address the driver and instructor shortage.

Retired drivers don't take away resources from the industry but help enhance it.

## For more information on becoming an instructor:
