

## Course Catalog

### Modules currently available:

- PML 101 – Introduction to Future Mobility Technologies
- PML 102 – Hands on Demo Experience with Connected and Automated Vehicles
- PML 110 – Sensor Technology in Vehicle Automation
- PML 111 – Coding for Transportation
- PML 112 – Digital Twins & Simulation in Transportation
- PML 113 – Virtual Reality & Simulation in Transportation Design
- PML 114 – Robotics in Transportation
- PML 115 – Drones and the Future of Air Transportation
- PML 116 – Rocketry and Space Exploration
- PML 117 – Electric Vehicle and Charger Technology
- PML 118 – Careers in Transportation Technologies

### Future Modules:

- PML xxx – Connected Vehicles and Vehicle to Infrastructure
- PML xxx – The Future of Safety and Transportation
- PML xxx – Mobility Technology and Accessibility
- PML xxx – Technology in Powersports
- PML xxx – Rural Transit, Trails, and Transportation Technologies
- PML xxx – Cybersecurity and Data Protection in Transportation
- PML xxx – Mapping Technologies for Transportation
- PML xxx – Technology in Automotive Racing
- PML xxx – Technology in Logistics and Transport of Goods
